

Dear FCC Commissioners:

I am writing to ask you to rule against the proposal to relax cross-ownership restrictions that you are now considering. I am deeply concerned about the ongoing consolidation of mass media ownership in the U.S., and see it as the probable root cause of the overall loss of diversity of viewpoints expressed through the mass media, the reduction in local programming, and the decline in innovation in programming. Rather than further relaxing ownership restrictions, I urge you to work towards reversing the trend towards ownership consolidation.

Sincerely,
Mary Evans
